Installation Instructions

BK-4BG

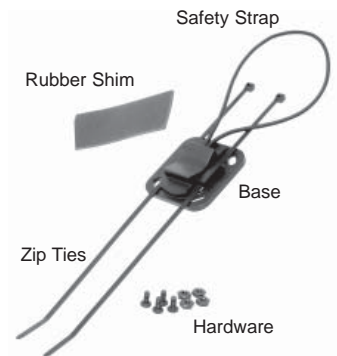

Mounts on the Handlebar or Stem Commuter, Mountain or Road bikes

*This holder will not protect your iPhone 3G/3GS from incimate weather or crashes.
The manufacturer, distributors and retailers for this product may not be held liable for damage to you or your iPhone for any reason.*

Contents: iPhone 4 holder, mounting base, zip ties, secure strap, rubber shim, logo sticker, hardware.

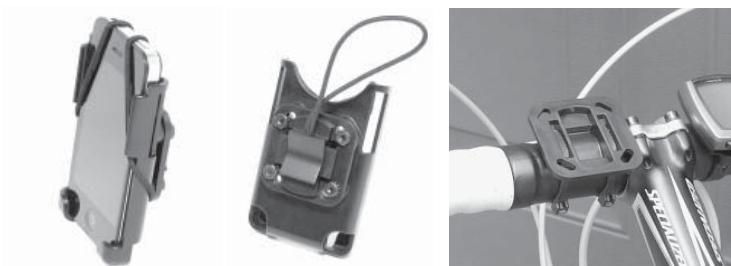

Installation Instructions

Please read through the complete instructions prior to installing.

Select your preferred position (handlebar or stem), check the position to make sure the mount and holder do not interfere with controls and are in the desired orientation. Apply the rubber shim to the handlebar or stem. Position the base on the shim and attach using 2 zip ties, tighten and trim off the extra.

Attach the iPhone holder to the base with hardware supplied. Place the Logo sticker on the front of the holder to cover the hardware. Slide your phone into the holder from the top. Pull the secure strap over and hook behind holder as shown. To remove, unhook the secure strap and slide your phone out.

Note: Removing your phone while riding is not recommended.

Components produced in China, assembled in USA
