

CHRYSLER LHS (1999-2002) CHRYSLER 300M (1999-2004)

PART NUMBER: **DG-51-99**

PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS Pro.Fit VSM®.
All instructions assume a drivers seat vantage point. Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

Pro.Fit logo and part number will be right side up and readable when installed.

TOOLS REQUIRED: Hook tool, #2 Phillips screwdriver.

PARTS INCLUDED: Pro.Fit VSM®, instructions.

LOCATION: To the right of the radio.

STEP 1.

Begin by removing the trim bezel that surrounds the radio.
NOTE: The climate control is integrated into the bezel and will be removed with it. **CAUTION: THE DASH PAD CAN TEAR OR RIP VERY EASILY.** Insert the hook tool behind the bezel in the lower right corner of the cubby hole just below the radio. Pull toward you to release lower right clip. Perform this same action in the lower left corner of the cubby hole releasing lower left clip. Insert the hook tool between the bezel and the dash pad to the right of the radio releasing middle right clip. Do the same on the left side of the radio releasing middle left clip. Insert the hook tool behind the bezel in the top right and left corners of the bezel and pull toward you releasing the two (2) top clips. Disconnect all wiring to the bezel and set bezel aside.

STEP 2.

Locate and remove the four (4) Phillips screws holding the radio in place. Carefully pull the radio out of its cavity just enough to get the Pro.Fit VSM® behind the radio mounting bracket. Align the top hole in the Pro.Fit VSM® with the top right screw hole. Slide the radio back into its cavity. Insert all four radio factory mounting screws and tighten.

STEP 3.

Re-assemble the dash in reverse order securing all clips. Install the phone holder onto the Pro.Fit VSM®.

This completes the installation of your Pro.Fit VSM®.
