

Pro.Fit "J" ADAPTER

PART NUMBER: GP-S2

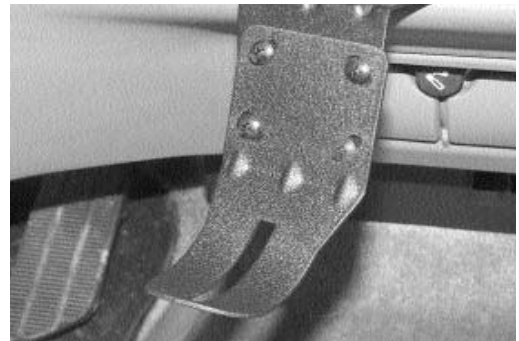

PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS Pro.Fit Solution.
All instructions assume a drivers seat vantage point. Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

TOOLS REQUIRED: #1 Phillips screwdriver, 11/32" open end wrench.

PARTS INCLUDED: Pro.Fit "J" adapter, instructions, one Santoprene® spacer, four (4) #8-32x3/8" truss head screw, four (4) #8-32 Nylok nut, one (1) 1/4"-20 socket head with Tee nut, one 1/4" washer.

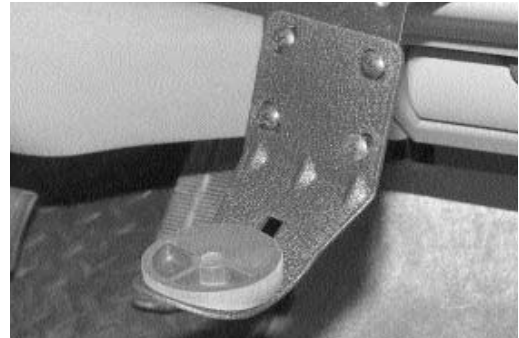

STEP 1.

Begin by attaching the "J" adapter to any AMP's compatible mounting device. To do this, place and align the "J" adapter over the holes on the mounting device. Insert the #8-32x3/8" truss head screws into the holes. From the back side of the mounting device attach the Nylok nuts onto the screws. Tighten the nuts using the #1 Phillips screwdriver and 11/32" wrench.

STEP 2.

Lay the Santoprene® spacer in the cradle of the "J" adapter making sure the two indentations in the spacer face toward the front of the adapter. Align the hole in the spacer with the slot on the "J" adapter.

STEP 3.

Place the 1/4" washer over the Tee nut. Insert the Tee nut through the slot on the bottom of the "J" adapter and up through the hole in the spacer. Place the GPS unit over the spacer and insert the Tee nut into the socket in the GPS unit tightening the unit down onto the spacer finger tight.

STEP 4. Adjust the GPS unit's view angle by sliding the unit in the slot on the "J" adapter. Tighten the GPS unit in place.

This completes the installation of your Pro.Fit "J" adapter.
