WWW.PRO-FIT-INTL.COM**

PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS Pro.Fit VSM™.
All instructions assume a drivers seat vantage point. Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

Pro.Fit logo and part number will be right side up and readable when installed.

TOOLS REQUIRED: Phillips screwdriver, hook tool, marking pen, 5/64" drill bit, drill, protective cloth.

PARTS INCLUDED: Pro.Fit VSM™ mount, instructions, one (1) #8x3/8" screw.

LOCATION: In upper right corner of radio cavity.

STEP 1.

Begin by removing center console. Remove drink cup holder. Underneath are three (3) screws. Remove these screws. Inside console, remove small access cover in bottom, remove two (2) more screws. Remove ash tray and one (1) screw behind it. Carefully lift and remove entire console and set aside. Remove two (2) additional screws located in front of the shifter which hold the radio trim bezel in place. **NOTE:** Use protective cloth in between trim bezel and dash to prevent scratching.

STEP 2.

Insert hook tool behind trim bezel in upper right hand corner. Pull back to release clip. Repeat on left side. Grasp bezel with hands and work loose. Let hang on left side. **(Do not disconnect wiring.)** Remove screw securing upper right side of radio. Attach phone hang-up cup onto Pro.Fit VSM™. Position upper mounting tab of Pro.Fit VSM™ over screw hole, hold in desired position, and mark starter hole through lower tab on Pro.Fit VSM™. Set Pro.Fit VSM™ aside.

STEP 3.

Using 5/64" drill bit and drill, **CAREFULLY** drill a starter hole for provided screw. Align Pro.Fit VSM™ over screw holes. Insert and tighten factory screw and provided screw, securing mount.

STEP 4.

Reinstall trim bezel and factory screws in front of shifter. Reposition console, replace all screws, and tighten.

This completes the installation of your Pro.Fit VSM™.
