PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS Pro.Fit VSM™.
All instructions assume a drivers seat vantage point. Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

Pro.Fit logo and part number will be right side up and readable when installed.

TOOLS REQUIRED: #2 Phillips screwdriver, hook tool, small standard screwdriver.

PARTS INCLUDED: Pro.Fit VSM™, instructions.

LOCATION: To the right of the radio.

STEP 1.

Insert small flat screwdriver under shifter bezel at lower right side and pry to release two (2) clips on right. Repeat on left side. Set bezel aside.

STEP 2.

Below ashtray, near bottom of radio trim bezel, locate and remove one (1) Phillips factory screw. Set screw aside. Locate dimmer switch cover plate. Insert hook tool behind face plate and pull to release clip. Remove switch and disconnect wiring harness. Behind switch, locate and remove one (1) Phillips factory screw. Set screw aside. (**CAUTION: Climate control is connected to the trim bezel and can only pulled out a few inches.**) Grasp lower section of radio trim bezel and pull back to release lower clips. Work fingers around to release remaining clips. A total of four (4) clips will be released. Pull bezel out enough to gain access to two (2) screws on right side of radio. Do not disconnect wiring. Bezel will be loose enough to gain access to radio screws on right side of radio.

STEP 3.

Using Phillips screwdriver, remove two (2) Phillips screws to the right of the radio. Align Pro.Fit VSM™ over holes. Insert and tighten factory screws on right of radio.

STEP 4.

Reassemble dash. Attach hang-up cup onto Pro.Fit VSM™.

This completes the installation of your Pro.Fit VSM™.
