PART NUMBER: **IZ-71-96**

**PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS Pro.Fit VSM™.**  
 All instructions assume a drivers seat vantage point. Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

**Pro.Fit logo and part number will be right side up and readable when installed.**

*TOOLS REQUIRED:* #2 Phillips screwdriver, , telemagnet.

*PARTS INCLUDED:* **Pro.Fit VSM™**, instructions.

*LOCATION:* To the right of radio.

**STEP 1.**

Begin by removing the trim bezel which surrounds the ashtray and small cubby hole/CD player. To do this remove ashtray by opening, depressing silver flap, and pulling out on ashtray. Grasp bezel, starting on sides of top of bezel and work around, releasing clips. Remove and set aside.

**STEP 2.**

Using Phillips screw driver remove three (3) screws along top of trim bezel. One (1) centered above radio and two (2) centered above speedometer, set screws aside. Using Phillips screwdriver, locate and remove four (4) screws holding in trim bezel that surrounds steering column, Set screws aside.

**STEP 3.**

Remove the trim bezel surrounding radio, speedometer, etc. Starting near climate control, working with fingers work clips lose. Bezel will not need to be completely removed. Loosen bezel just enough to remove two (2) screws - one (1) to the right of the radio and one (1) on upper right corner of air conditioning vent. (**HINT - the use of a telemagnet for the removal of these screws is recommended.**)

**STEP 4.**

Place **Pro.Fit VSM™** into position. Reinstall factory screws and tighten. Reinstall trim bezel, following directions in reverse order. Mount hang-up cup onto **Pro.Fit VSM™**.

This completes the installation of your **Pro.Fit VSM™**.
