

Toyota Corolla (2003-2006)

PART NUMBER: MV-50-03-L

PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS Pro.Fit Legend.

All instructions assume a drivers seat vantage point. Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

TOOLS REQUIRED: #2 Phillips screwdriver, drill and 5/64" bit, Dash trim removal tool (DM-40-22), 10mm

PARTS INCLUDED: nut driver, marking pen

Pro.Fit Legend, instructions, two (2) # 8 x 1/2" screws.

LOCATION: Right of climate control

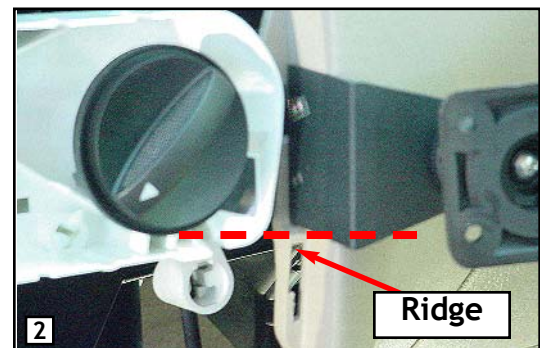

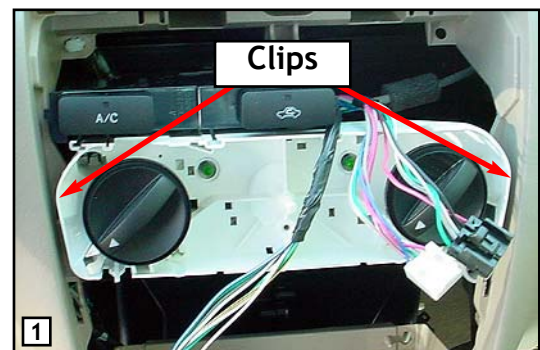

STEP 1. Set parking brake and put gear shift into low. Remove gear shift bezel by inserting trim tool behind lower right corner and prying up. Work tool up the right side of bezel until all three (3) clips are released. Repeat on left side. Lift bezel up over gear shift and set aside. Wiring does not need to be disconnected.

STEP 2. Remove center fan control knob by pulling outward. Remove the Phillips screw hidden behind the fan control knob. Insert the dash trim tool behind the upper right corner of the climate control bezel. Pry outward to release a retainer clip. Work the trim tool around the bezel until all clips are released. Remove bezel, disconnect wiring and set aside.

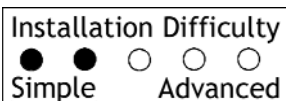

STEP 3. Push fingers on clips on either side of the climate control knob panel until panel is released. **Photo 1.** Pull panel out slightly and turn enough to access the dash panel right of the air temperature knob.

STEP 4. Align the bottom of the Legend VSM on the small ridge right of climate control knob. **Photo 2.** Using the screw holes as a guide, mark the location of the top and bottom hole. **Carefully** drill two (2) pilot holes at the marked location using a 5/64" drill bit and drill. Align the LEGEND over the pilot holes, insert two (2) # 8 x 1/2" screws and tighten.

STEP 5. Re-assemble the dash in reverse order, remembering to reconnect all wiring. This completes the installation of your Legend.
