PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS Pro.Fit VSM™.
All instructions assume a drivers seat vantage point. Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

Pro.Fit logo and part number will be right side up and readable when installed.

TOOLS REQUIRED: Hook tool, #1 Phillips screwdriver, 5/64" drill bit, drill.

PARTS INCLUDED: Pro.Fit VSM™, two (2) #8x3/8" self tapping screws, instructions.

LOCATION: To the right of the radio.

STEP 1.

Begin by removing radio and climate control trim bezel by inserting hook tool behind bottom right corner of bezel. Pull back to release lower right clip. Repeat on left to release lower left clip. With hands, pull down bezel to release from three (3) slots along the top which are still holding it in place. Set bezel aside.

STEP 2.

Using Phillips screwdriver, locate and remove four (4) screws which hold the radio in place. Partially slide radio out. Do not remove radio. Do not disconnect wiring. Align Pro.Fit VSM™ with the top screw hole and centering pin located on the right side of the radio. Reinsert radio. Re-insert factory screw which will hold in Pro.Fit VSM™ and tighten. Reinsert remaining three (3) factory screws and tighten.

STEP 3.

Using the 5/64" drill bit and drill, drill two (2) pilot holes using remaining holes in Pro.Fit VSM™ as a guide. Insert screws provided and tighten.

STEP 4.

Snap trim bezel back into place. Install hang-up cup onto Pro.Fit VSM™.

This completes the installation of your Pro.Fit VSM™.
